

PepTalk

JANUARY 13-16, 2025
SAN DIEGO, CA + VIRTUAL
HILTON SAN DIEGO BAYFRONT

The Protein Science and Production Week

2025 PROGRAMS

JANUARY 13 | SYMPOSIA

JANUARY 14-15

JANUARY 15-16

PROTEIN EXPRESSION

(Re)Discovering Protein Expression Platforms

Recombinant Protein Expression - Part 1

Recombinant Protein Expression - Part 2

HIGHER THROUGHPUT

Predictive Protein Production

Automation in Protein Sciences

Cutting-Edge Tools for Purification and Quality Assurance

DEVELOPABILITY AND CHARACTERIZATION

ML and Predictive Methods in Analytical Development

Methods for Developability Analysis

Characterization for Novel Biotherapeutics

TARGETED THERAPIES - NEW

Vectors for Targeted Delivery

Targeted Radioligand Therapies

Next-Generation Protein Degradation

ANTIBODY ENGINEERING

Bispecific Engineering & Therapeutics

TRAINING SEMINAR
Antibody Engineering

TRAINING SEMINAR
Antibody Drug Discovery

TRAINING SEMINARS
